

20ft/40ft/45ft Container Skeletal Trailer

Container skeletal trailers are essential tools in the global logistics and transportation industry. Among them, 20ft, 40ft, and 45ft container skeletal trailers play crucial roles in different scenarios.

Container skeletal trailers are specialized vehicles designed for the transportation of standard ISO containers. These trailers are important in global logistics, facilitating the seamless movement of containers between ports, rail terminals, and warehouses. The common sizes of these trailers—20ft, 40ft, and 45ft—are designed to accommodate different container dimensions, ensuring versatility and efficiency in container transport. Skeletal trailers feature a minimalist structure that reduces overall weight while maximizing payload capacity. This design allows the trailer to carry heavy containers without adding excessive weight, leading to fuel efficiency and lower operational costs.

Product	20ft/40ft/45ft Container Skeletal Trailer
Type	Semi Trailer
Max Payload	>30000 kg
Size	12500*2500*1500 mm
Axle	2 Axle / 3 Axle / 4 Axle 13 Ton Fuwa
Suspension	Mechanical Suspension / Air Suspension
Landing Gear	JOST
King Pin	2"(50mm) or 3.5"(90mm)
Twist Lock	4-12 Sets
Material	Steel
Function	20' 40' 45' Container Transporting

PS: All the parts of the trailer can be customized
