

## Dong Xu 3 Axles Stainless Steel Water Tank Semi Trailer

The 3 axles stainless steel water tank semi trailer is specifically designed to handle large volumes of liquid, primarily water. Its stainless steel construction offers several advantages, including corrosion resistance, strength, and hygiene. Water, especially potable (drinkable) water, requires a clean and non-reactive environment, and stainless steel is the ideal material for this purpose.

The stainless steel tank is the primary feature of this trailer. Stainless steel is known for its corrosion resistance, making it the perfect material for carrying water, particularly in varying weather conditions or challenging environments. Additionally, stainless steel maintains water quality by preventing contamination and ensuring that the transported water remains safe for its intended use.

The trailer is equipped with multiple outlets for discharging water. These outlets allow for efficient unloading at different rates, depending on the specific requirements. The system is designed for ease of use, ensuring that water can be quickly and safely delivered to the desired location.

Product name	3 Axles Stainless Steel Water Tank Semi Trailer
Type	Semi-Trailer
Max Payload	>30000 kg
Size	11500mm * 2500mm *3700mm
King pin	2"(50mm)or3.5"(90mm)
Leaf Spring	90(W)mm*13(Thickness)mm*10(Layer)
Landing Gear	JOST/FUWA/Yahua Brand 28T
Axle	13 Ton Fuwa Brand
Suspension	Mechanical Suspension/ Air Suspension
Tire	12r22.5
Capacity	25m <sup>3</sup> -60m <sup>3</sup>
Rim	9.00-22.5
Material	Stainless Steel
Function	Fuel and other liquid.

PS: All the parts of trailer can be customized.
