

Dong Xu 3Axle Cement Bulker Trailer

The Dongxu 3-axle bulk cement semi-trailer is designed for use in cement factories, warehouses, and large construction sites. It significantly reduces the need for packaging materials and minimizes loading and unloading labor.

The trailer features an upper dust removal system to prevent dust leakage and mitigate environmental impact. Its lower section includes an arch-breaking device to avoid powder clumping and ensure smooth discharge. The trailer can be connected to a screw conveyor for transferring powder to a metering system or can utilize pneumatic conveying.

The "W" or "WV" type design with dual (or triple) compartments increases the tank's effective volume and improves discharge speed, while also lowering residual ash rates. Regular vehicle maintenance is crucial to ensure safe and efficient transportation.

Product name	3Axle Cement Bulker Trailer
Type	Semi-Trailer
Max Payload	>30000 kg
Size	13000*3000*1760mm
King pin	2"(50mm)or3.5"(90mm)
Leaf Spring	90(W)mm*13(Thickness)mm*10(Layer)
Landing Gear	JOST/FUWA/Yahua Brand 28T
Axle	13 Ton Fuwa Brand
Suspension	Mechanical Suspension/ Air Suspension
Tire	12r22.5
Capacity	25m ³ -60m ³
Rim	9.00-22.5
Material	Steel
Function	Transport cement, lime powder, ore powder or other a particle diameter of no more than 0.1mm.

PS: All the parts of trailer can be customized.
