

## Dong Xu 3Axle Extendable Trailer

Dong Xu 3Axle Extendable Trailer has the biggest feature of a telescopic semi-trailer is its adjustable body length. This characteristic allows it to flexibly adapt to varying cargo volumes, significantly enhancing transportation efficiency and cost-effectiveness.

Moreover, the design of telescopic semi-trailers also takes safety and stability into account. The advanced telescoping mechanism has undergone rigorous testing and optimization to ensure reliability and safety both during extension and while driving.

With ongoing technological advancements, the intelligence of telescopic semi-trailers is continuously improving. Equipped with intelligent monitoring systems, they can provide real-time updates on the vehicle's status, cargo conditions, and travel routes, making the transportation process more controllable and efficient.

In summary, the advent of telescopic semi-trailers undoubtedly presents new development opportunities for the logistics and transportation industry. It is expected that, in the future, these trailers will play an increasingly important role in advancing the logistics sector.

|              |  |
|--------------|--|
| Product name | Dong Xu 3Axle Extendable Trailer               |
| Type         | Semi-Trailer                                   |
| Max Payload  | >30000 kg                                      |
| King pin     | 2"(50mm)or3.5"(90mm)                           |
| Leaf Spring  | 90(W)mm*13(Thickness)mm*10(Layer)              |
| Landing Gear | JOST/FUWA/Yahua Brand 28T                      |
| Axle         | 13 Ton Fuwa Brand                              |
| Suspension   | Mechanical Suspension                          |
| Tire         | 12r22.5  |
| Capacity     | 25m <sup>3</sup> -60m <sup>3</sup>             |
| Rim          | 9.00-22.5                                      |
| Material     | Steel  |
| Function     | 20' or 40' container and other cargo transport |

PS: All the parts of trailer can be customized.
