

DongXu 3Axle Side Tipper Semi Trailer

Dong Xu 3-Axle Side Tipper Trailer plays a crucial role in the construction and transportation industries. Its cargo box features a versatile length to accommodate a range of transportation needs. Equipped with a hydraulic lifting system, the trailer can unload in multiple ways: left-side tipping, right-side tipping, and a combined left-right tipping option.

This flexible design effectively meets unloading needs across various environments, including construction sites, factories, and narrow rural areas. It is ideal for transporting bulk materials such as building materials, sand, gravel, and earth over medium to short distances. Frequently used in infrastructure and civil engineering projects, the trailer can integrate seamlessly with construction machinery like excavators, loaders, and belt conveyors, creating a comprehensive loading, transportation, and unloading production line.

Product	DongXu 3Axle Side Tipper Semi Trailer
Type	Semi Trailer
Max Payload	>30000 kg
Size	12500*2500*2700 (mm)
Axle	Fuwa
Suspension	Mechanical Suspension
Tire	12r22.5
Landing Gear	28t Heavy Duty Landing Gear
King Pin	2"(50mm) or 3.5"(90mm)
Brake System	WABCO Valve
Material	Steel
Function	Building Material / Agriculture Products Transporting

PS: All the parts of the trailer can be customized
