

## Dong Xu Heavy Duty 3Axle Cargo Fence Semi Trailer

The Heavy Duty 3Axle Cargo Fence Semi Trailer is capable of handling substantial weight and load, making it suitable for transporting heavy goods such as construction materials. Its structure and components are reinforced to ensure stability and safety under heavy loads. The three-axle design offers better load-bearing capacity and weight distribution. Compared to two-axle semi-trailers, it provides smoother driving and the ability to carry heavier cargo, reducing pressure on the road surface while enhancing driving stability and maneuverability.

The trailer is equipped with side fences around the cargo area to secure and protect the load. These fences prevent goods from falling or shifting during transit, ensuring safe transportation. The height and strength of the fences are typically designed based on the type of cargo and transport requirements.

In industries such as logistics and construction, the heavy-duty 3-axle cargo fence semi-trailer plays an essential role. For example, it can transport various construction materials and large equipment at construction sites, and it can be used for long-distance transportation of heavy cargo in the logistics field.

Product name	Heavy Duty 3Axle Cargo Fence Semi Trailer
Type	Semi-Trailer
Max Payload	>40000 kg
Size	13000*2550*2400mm
King pin	2"(50mm)or3.5"(90mm)
Leaf Spring	90(W)mm*13(Thickness)mm*10(Layer)
Landing Gear	JOST/FUWA/Yahua Brand 28T
Axle	13 Ton Fuwa Brand
Suspension	Mechanical Suspension/Air Suspension
Tire	12r22.5
Rim	9.00-22.5
Material	Steel
Function	Cargo Transport

PS: All the parts of trailer can be customized.
