

2 Axle 12.5m Van Semi Trailer for Sale

The Van Semi Trailer is a common type of freight transport vehicle, named for its enclosed cargo compartment design. It is widely used in logistics, express delivery, retail, and other industries.

Compared to the open top trailers, the Van Semi Trailer offers better protection for goods, shielding them from external environmental factors such as rain, dust, and wind. Additionally, its enclosed structure enhances transportation security by reducing the risk of goods being lost or stolen.

DongXu 2 Axle 12.5m Van Semi Trailer, the cargo compartment of Van Semi Trailer can be made of high-strength steel or lightweight aluminum alloy according to customer requirements. This ensures structural strength while reducing the overall weight of the vehicle, which lowers fuel consumption and improves transportation efficiency.
